limit SDE of the trained model
centered refinement (Theorem)
uncentered refinement
error in mean $E[z_1]$ at $T = 2$
error in second moment $E[z_1^2]$ at $T = 2$
error in $E[\cos(z_1 + z_2)]$ at $T = 2$
error in path maximum $E[\max \|Z_t\|_\infty]$ at $T = 2$
|model − OU|
inference step h (refined from $h_0 = 0.1$ →)
